Floating Sub List

Updated Sept. 15, 2014

“Rules for being a Floating Sub.” Gold or Silver Division shooters can substitute for either Division, however, No Master or AA players can shoot in the Silver Division. Any Sub that decides to officially join a team, must notify the league director. Once you declare a Team, you are NOT allowed to shoot on any other team. No exceptions.

It’s your team’s responsibility to keep track of this.

You may add your name to the Floating Sub List at any time, however, if you do not notify the league director 24 hours before the next night of shooting, your night with that team will not count for that night or any end of the season tournament requirements.

**You can NOT belong to a team and be on the floating sub list at the same time.
This Floating List Updates can only be found online at Lakeshorecoin.net.**

Notify Tommy Lloyd 920-627-3872 cell for any changes.
